1st INTERNATIONAL CONFERENCE on Materials, Mathematics and Advanced Technologies (ICMMAT - 2026)

(Hybrid Mode)

26th &27th November 2026

Organized by

Departments of Mathematics, Chemistry & Physics

About The College

PAAVAI ENGINEERING COLLEGE was started in the year 2001 and promoted by PAVAI VARAM EDUCATIONAL TRUST with the basic principle of providing purposeful, goal oriented technical education and establishing a center of excellence in Engineering & Technology. The college is approved by AICTE, affiliated to Anna University, Chennai. The college has the vision to strive to be a globally model institution all set for taking a 'lead-role' in grooming the younger generation to be socially responsible and professionally competent to face the challenges ahead. It has obtained research grants from AICTE, CSIR, TNSCST and other funding agencies. The college attracts outstanding students by virtue of its discipline, modern infrastructure, Library and faculty.

About The Conference

The International Conference on Materials, Mathematics and Advanced Technologies (ICMMAT 2026) provides a platform for researchers, academicians, industry experts, and students to share innovative research and ideas. The conference focuses on emerging trends in materials science, mathematics, and advanced technologies that drive advances in science and engineering. It promotes interdisciplinary research, sustainable innovations, and collaboration between academia and industry. The event features keynote lectures by eminent experts, technical sessions, and paper presentations highlighting recent developments and practical applications. ICMMAT 2026 aims to encourage knowledge exchange, foster research collaborations, and inspire innovative solutions to address global technological challenges and societal needs.

About the Department

The Department of Science and Humanities at Paavai Engineering College (Autonomous) provides a strong foundation for engineering education through Physics, Chemistry, and Mathematics. The department promotes interdisciplinary learning and research in areas such as advanced materials, nanoscience, green chemistry, renewable energy, and applied mathematics. Experienced faculty, well-equipped laboratories, funded research projects, and reputed publications support academic excellence. The department regularly conducts seminars, workshops, conferences, and FDPs, while encouraging students to engage in research and present papers.

Aims and Objectives

- Promote interdisciplinary research and knowledge sharing.
- Encourage innovation in science and engineering. Strengthen collaboration between academia and industry.
- Share emerging technologies and research trends.
- Enhance research quality, professional growth, and societal development.

Conference Topics

Mathematics: Algebra • Graph Theory • Control Theory • Differential Equations • Fractional Calculus • Mathematical Modeling • Numerical Methods • Optimization Theory • Topology • Dynamical Systems • Fluid Mechanics • Fuzzy Mathematics • Machine Learning • Mathematical Physics • Number Theory • Operator Theory • Data Science and Algorithms • Neural Networks.

Physics: Advanced Functional Materials & Nanotechnology • Energy Materials & Renewable Energy Technologies • Semiconductor Physics & Electronic Materials • Photonics, Optics and Laser Applications • Computational Physics & Materials Modeling • Quantum Materials, Quantum Devices and Nanoscience • Thin Films, Surface Engineering and Advanced Coatings • Applied Physics for Sustainable Engineering and Smart Technologies.

Chemistry: Synthetic Organic Chemistry • Natural Products and Bioorganic Chemistry • Organic Synthesis, Catalysis and Organometallics • Green and Sustainable Chemistry • Carbohydrates and Biochemistry • Medicinal Chemistry and Chemical Biology • Polymer Chemistry and Technology • Photochemistry and Photocatalysis • Functional Organic and Optoelectronic Materials • Physical Organic Chemistry • Industrial Chemical Processes and Technology • Supramolecular Chemistry • Drug Design, Delivery and Bioinformatics • Food and Agricultural Chemistry • Nanomaterials, Biomaterials and MOFs • Computational Chemistry • Engineering Materials • Allied Chemical Sciences.

Publication

All accepted abstracts will be published with an ISBN in the official Conference Proceedings and made available to registered participants in November 2026. Additionally, selected high-quality extended papers may be recommended for publication in the following publication venues:

1. Natural Sciences and Applied Technology# (Scopus)
2. Springer Nature Conference Proceedings (Subject to proposal approval)

Note: Recommendations are subject to peer review, quality standards, scope alignment, and applicable publication charges. (#APC applicable)

Guest Speakers

Prof. Natesan Srinivasan
Professor (HAG)
Department of Mathematics
Indian Institute of Technology, Guwahati

Dr. S. Sivasankaran
Professor, Department of Mathematics
