3D MODELING

Description

IF I HAD A TALK SHOW IT WOULD HAVE BEEN THE NAME OF-"A BRILLIANT NEVER DEAL WITH MONEY; SERVE BETTER, MAKE AN AFFECTION WITH THE NATION"

- Namnei

3D modeling is a technique in computer graphics for producing a **3D** digital representation of any object or surface. An artist uses special software to manipulate points in virtual space(called vertices) to form a mesh: a collection of vertices that form an object.

RULES

- Gather references. Look for real world examples or even work from other artists.

- Never start with the detailing. Or as my art teacher used to say: "go from the general to the particular".

- If you don't like it, get rid of it

- Wear and tear

- Name things
