

DEPARTMENT OF INFORMATION TECHNOLOGY & AIML

EVENT NAME: Paper Presentation

Event Description:

Teams are required to submit their research papers in the correct format via email. If selected, participants must send a soft copy of the full paper along with a scanned copy of their College ID card to the provided email address.

- Team Structure: 4 members per team.
- Rules:
- Selected participants will be notified via email.
- Presentations will be evaluated based on originality, research quality, and presentation skills.

EVENT NAME: W3War

Event Description:

In this web development event, participants will create a website from scratch within a set time frame. Both coding and no-code platforms are allowed, but pre-built websites are not permitted.

- Participation: Individual.

Rules:

- Participants must bring their own laptops.
- The website must be developed within 1 hour.
- Marks will be awarded based on:
 - Device responsibility
 - Website interface and design
 - Articulation of the website's purpose and content.

EVENT NAME: Wonder Query

Event Description:

This event tests participants' knowledge and skill in database querying. There are two rounds:

Round 1:

- Participants will answer MCQ questions related to query languages.
- Mode: Pen and Paper.
- Time: 20 minutes.

Round 2:

- The top 20 participants from Round 1 will proceed to this round.
- Participants will be provided with a relational model and schema, and they must query the database to retrieve required information.
- Marks will be based on query efficiency and completion time.
- Time: 40 minutes.

- Participation: Individual.
