AICTE sponsored online STTP on “DATA SCIENCE TECHNOLOGIES” 19-10-20 to 24-10-20

The Department of Computer Science and Engineering, organized a short term training programme for Faculty on the title, AICTE sponsored online STTP on “DATA SCIENCE TECHNOLOGIES”. Data Science is a blend of various tools, algorithms, and machine learning principles with the goal to discover hidden patterns from the raw data. Data Science is primarily used to make decisions and predictions making use of predictive causal analytics, prescriptive analytics (predictive plus decision science) and machine learning. In the first phase Dr. BALACHANDRAN.K Prof & Head Christ (Deemed to Be University) Karnataka elaborated on Data Science & Its Life Cycle. Dr. Cherukuri Ravindranath Chowdary Prof/CSE and Mr. Chinnasamy Manickam Software Development NTT Data, Canada described about machine learning concepts. Rajkumar Kalaimani Senior Systems Engineer, Infosys Ltd, Chennai introduced about Data Science with R. Dr. R. Srinivasan SRM Institute of Science And Technology, Chennai gave a hands on exposure about Data Science Setting up Environment and Programming with PYTHON. Dr. T. Chellatamilan, Associate Professor Vellore Institute of Technology Vellore gave real time examples and scenarios on the need and use of Data Modelling and Statistical Analysis. Dr. G. Vadivu, Head/IT SRM Institute of Science and Technology, Chennai interactively discussed about case studies in Data Science; on the whole the first phase was informative about the arising impact of data science.

The Department of Computer Science and Engineering, organized a short term training programme for Faculty on the title, AICTE sponsored online STTP on “DATA SCIENCE TECHNOLOGIES”. Data Science is a more forward-looking approach, an exploratory way with the focus on analyzing the past or current data and predicting the future outcomes with the aim of making informed decisions. It answers the open-ended questions as to “what” and “how” events occur. In the second phase Dr.Chelukuri Ravindranath Chowdary Prof/CSE Christ (Deemed to Be University), Karnataka elaborated on Data Science in machine learning and machine learning algorithms. Dr.BALACHANDRAN.K Prof&Head elucidated about Data Science and life cycle with real time examples. Rajkumar Kalaimani Senior Systems Engineer, Infosys Ltd, Chennai demonstrated real-time case studies of data science with R. Dr.R.Srinivasan SRM Institute of Science and Technology, Chennai gave more examples on hands on demonstration and illustration exposure about Data Science, Setting up Environment and Programming with PYTHON. Dr.G.Vadivu, Head/IT SRM Institute of Science and Technology, Chennai interactively discussed about few more case studies in Data Science .The session was useful to all open ended questions on the data sources, approach, focus and tools behind data science.

<p>ABOUT THE INSTITUTION</p> <p>PAAVAI ENGINEERING COLLEGE (An Autonomous Institution) was started in the year 2005 and promoted by PAAVAI VARAM EDUCATIONAL TRUST with the basic principle of providing purposeful, goal oriented technical education and establishing a center of excellence in Engineering & Technology. The college is approved by AICTE, Accredited by NBA, and Accredited by NAAC (UGC) with "A" grade and affiliated to Anna University, Chennai. The college has the vision to strive to be a globally model institution all set for taking a 'lead-role' in grooming the younger generation socially responsible and professionally competent to face the challenges ahead. It has obtained research grants from KMR, AICTE, THSCST, MHRD and other funding agencies. The college attracts outstanding students by virtue of its discipline, modern infrastructure, Library and faculty. The Centre of excellence are IT Bombay resource center, EMC Academic alliance, ORACLE Academy, PaavaiSoft Innovation center, and Infosys Campus Connect.</p> <p>ABOUT THE DEPARTMENT</p> <p>The Department Of Chemical Engineering came into existence in the year 2015. The Department offers Undergraduate program in Chemical Engineering. The department is much focused to deliver a high quality of education to the students. It has well equipped labs for the students to enhance themselves with practical applications. The Department creates opportunities for their students to think out of box in order to get molded as world class professionals, capable of contributing to the welfare of society. <p>ABOUT THE INSTITUTION</p> <p>PAAVAI ENGINEERING COLLEGE (An Autonomous Institution) was founded in the year 2005 and promoted by PAAVAI VARUM EDUCATIONAL TRUST with the basic principle of providing purposeful, goal oriented technical education establishing a center of excellence in Engineering and Technology. The College is approved by AICTE, accredited by NBA and NAAC (UGC) with "A" grade and affiliated to Anna University, Chennai. The vision of the College is to strive to be a global model institution all set for taking a 'lead-role' in grooming the younger generation to be socially responsible and professionally competent to face the challenges ahead. It has obtained research grants from ICMR, AICTE, THSCST, MHRD and other funding agencies. The College attracts outstanding students by virtue of its discipline, modern infrastructure, good library and excellent faculties. The Sources of Excellence are IT Sandbox & Resource Center, EMC Academic Alliance, ORACLE Academy, Pearson Education Center, and Infosys Campus Connect.</p> <p>ABOUT THE DEPARTMENT</p> <p>The Department of Chemical Engineering came into existence in the year of 2015. The Department offers Undergraduate Programme in Chemical Engineering. The department is much focused to deliver a high quality of education to the students. It has well equipped laboratories for the students to enhance themselves with practical applications. The Department creates opportunities for its students to think out of box in order to get molded as world class professionals and capable of contributing to the welfare and development of societies. The faculty members are having good research, teaching experience and have registered for five Patents. The faculty members have received research grants from AICTE, THSCST, FAER and other funding agencies. An Awareness Programme- Green Engineering Concepts and Treatment Methods for Farmers in Rural Area

Agriculture is the practice of cultivating plants and livestock. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. Indian agriculture is plagued by several problems; some of them are natural and some others are manmade. Our farmers do not have properly record their incomes and expenses. Most of the time, they spend more when they have more due to illiteracy. There are frequent litigations among farmers directly or indirectly. In this STTP program we are about to discuss all the advancements and problems associated with in agricultural sector.

<p>ABOUT THE INSTITUTION</p> <p>Pavai Engineering College established in 1995, is one of the most educational institutions owned by Pavai Trust Educational Trust. The college is Self Financing approved by AICTE, accredited by NBA, New India and NAAC with 'B' grade and affiliated to Anna University Chennai. The college was granted level autonomous status under UGC scheme for Autonomous Colleges with effect from the academic year 2013-2014 by UGC, New Delhi. Equipped with latest facility and excellent infrastructure, the college offers a total of 28 self-financing programmes including B.E., B.Tech and Ph.D. Currently more than 100 courses including both full-time and part-time are running for their Ph.D. degree. The college has developed five centres of excellence in various disciplines. More research facilities have been created to foster such innovative learning outcomes.</p> <p>ABOUT THE DEPARTMENT</p> <p>The department of Electrical and Electronics Engineering is offering B.E. (EEE) and M.E. (Power Systems Engineering). The department is equipped with latest lab equipment and generator (R&D) centre as well as an excellent infrastructure facilities available. The department has well equipped Power Electronics and Drive Lab and Power System Simulation lab with state-of-the-art technology. The faculty members are well experienced and dedicated towards the attainment of the institute's vision.</p>	<p>ABOUT STTP</p> <p>The Short Term Course covers all aspects of solar PV technology & its impact on the solar sector as well as identifying issues & challenges & providing potential solution. This course is applicable to all view of grid-tied PV systems including residential, commercial, and large scale it does not cover battery. The goal of this Short Term Course covers is to identify these issues and next to improving them. One of such issues is solar siting & tracking methods that never performs very well in detecting optimal solar irradiance for maximum power output. Another such issue are emerging different types of solar cells from past to present and the future trend will double the sources of losses and how to mitigate them. Lastly, some critical components that are necessary for efficient operation of solar power systems are covered.</p> <p>Topics to be covered:</p> <p>Introduction of Solar PV Systems Demonstration and classification of characteristics of solar panel, Present status and future trends of PV technology Issues, challenges and mitigation methods for High PV penetration Power Conversion Inverters and Grids Grid-Grid Solar PV Systems Role of artificial intelligence in PV systems Challenges and Mitigation Methods of PV Systems Implementation of RSTP for Solar PV Systems</p> <p>Expected Outcomes:</p> <p>Current participants shall gain practical applications, R&D centre and industries will share their expertise on present status and future trends of PV technology and Grid-Grid Solar PV Systems</p>	<p style="text-align: center;">AICTE sponsored Six Days Online STTP</p> <p style="text-align: center;">On</p> <p style="text-align: center;">Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration</p> <p style="text-align: center;">Organized by: Department of Electrical and Electronics Engineering</p> <p style="text-align: center;">SLOT 1: 19th - 24th Oct 2020</p> <p>Registration Dates:</p> <ul style="list-style-type: none"> ✓ No registration fees ✓ Last date for Registration (Hard) is 17.10.2020 ✓ Registration link (Hard) is https://tinyurl.com/pwvsmv5t ✓ Interested participants have to complete online registration for participating in STTP ✓ Details related to registration, confirmation and seating will be shared through email ✓ An attendance register of participants is limited and participants will be given an hour from their own time. <p>Objectives:</p> <p>Faculty members and research scholars belonging to AICTE approved technical Institutions, Universities & Industry persons can participate in the programme.</p> <p>Participants:</p> <p>It will be opened on satisfying the following criteria:</p> <ul style="list-style-type: none"> ✓ Participants attendance should be more than 80% ✓ Participants should submit the feedback form for all the sessions & Participants should score at least 80% of marks in the assessment will be considered at the end of the STTP

Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration

An AICTE Sponsored six days online Short Term Training Programme (STTP) on “Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration” was conducted by Department of EEE from 19/10/2020 to 24/10/2020 at Paavai Engineering College. Resource persons invited from PSG College of Technology, Anna University, SRM University, GCE Salem, NIT Tiruchirapalli, VIT college professors and Global Application Manager Infineon Technologies India Pvt Ltd Germany.

Totally 54 faculties from different engineering colleges were attended in this program. This STTP helped the faculties to understand Solar PV Technology such as Demonstration and simulation of characteristics of solar panel, Present status and future trends of PV technology, Future challenges and mitigation methods for high PV penetration, Power Converters Issues and Tools, Grid-Tied Solar PV Systems, Role of artificial intelligence in PV systems, Challenges and Mitigation Methods of PV Systems and Implementation of MPPT for Solar PV Systems. These sessions helped the faculties for improving their skills of Solar PV Technology.

ABOUT THE INSTITUTION:

Pavai Engineering College established in 2004, is one of the most educational institutions situated in Pavai Town Educational Trust. The college is self-financing, approved by AICTE, accredited by NBA, New India and NAAC with 'B' grade and affiliated to Anna University Chennai. Our college was granted fresh admission status under UAI Scheme for Autonomous Colleges with effect from the academic year 2005-2016 by UGC, New Delhi. Equipped with latest facilities and excellent infrastructure, the college offers a total of 20 full time programmes including U. G., U. S. and Ph.D. Currently more than 100 research scholars, both full time and part time, are working for their Ph.D. degree. The college has developed five centres of excellence in various disciplines. Most research facilities have been provided in synergy with numerous leading industries worldwide.

ABOUT THE DEPARTMENT:

The department of Electrical and Electronics Engineering is offering B.E. (EEE) and M.E. (Power Systems Engineering). The department is enriched with latest lab equipment and promotes R&D activities in related areas in collaboration with industries wherever possible. The department has well equipped Power Electronics and Drive Lab and Power System Simulation lab with state-of-the-art technology. The faculty members are well experienced and dedicated towards the betterment of the student community.

ABOUT STTP

The Short Term Course covers all aspects of solar PV technology & its impact on the solar sector as well as identifying issues & challenges & providing potential solutions. This course is applicable to all sorts of grid-tied PV systems including residential, commercial, and large-scale. It does not cover battery. The goal of this Short Term Course covers is to identify these issues and ways to improving them. One of such issues is array tracking & tracking mechanisms that track / position solar array to absorbing maximum solar irradiance for maximum power output. Another such issue are researching different types of solar cells from past to present and the future trend and identify the sources of losses and how to mitigate them. Lastly, some critical components that are necessary for efficient operation of solar power generation system are covered.

Topics to be covered

Introduction of Solar PV Systems
 Demonstration and simulation of characteristics of solar panel, Power system and future trends of PV technology
 Future challenges and mitigation methods for high PV penetration
 Power Converter Inverters and Grids
 Grid-Tied Solar PV Systems
 Role of artificial intelligence in PV systems
 Challenges and Mitigation Methods of PV Systems
 Implementation of MPPT for Solar PV Systems

Expected Persons

Engineers, professionals from premier institutions, R&D centers and industries will share their expertise on present status and future trends of PV technology and Grid-Tied Solar PV Systems.

Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration

Organized by:
 Department of Electrical and Electronics Engineering

Slot 1: 9th – 14th Nov 2020

Registration Dates:

- < No registration fees
- < Last date for Registration (Slot 2): 7.11.2020
- < Registration till (Slot 2): <https://moodle.com/psocampus2/>
- < Successful participants have to complete online registration for participating in STTP.
- < Details related to registration, coordination and timing list will be shared through email.
- < An maximum number of participants is limited and preference will be given on first come first serve basis.

Eligibility:

Graduate students and research scholars belonging to AICTE approved Technical Institutions, Universities & Industries persons can participate in the programme.

ACCOMMODATION

It will be provided on satisfying the following criteria:

- < + Participants attendance should be more than 80%
- < + Participants should submit the feedback form for all the sessions & Participants should score at least 70% of marks in the assessment will be considered at the end of the STTP.

Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration

An AICTE Sponsored six days online Short Term Training Programme (STTP) on “Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration” was conducted by Department of EEE from 9/11/2020 to 14/11/2020 at Paavai Engineering College. Resource persons invited from PSG College of Technology, Anna University, SRM University, GCE Salem, NIT Tiruchirapalli, VIT college professors and Global Application Manager Infineon Technologies India Pvt Ltd Germany.

Totally 56 faculties from different engineering colleges were attended in this program. This STTP helped the faculties to understand Solar PV Technology such as Demonstration and simulation of characteristics of solar panel, Present status and future trends of PV technology, Future challenges and mitigation methods for high PV penetration, Power Converters Issues and Tools, Grid-Tied Solar PV Systems, Role of artificial intelligence in PV systems, Challenges and Mitigation Methods of PV Systems and Implementation of MPPT for Solar PV Systems. These sessions helped the faculties for improving their skills of Solar PV Technology.

<p>ABOUT THE INSTITUTION</p> <p>Paavai Engineering College established in 2003, is one of the name educational institutions mentioned in Paavai Tamil Educational Trust. The college is fully functioning, approved by AICTE, accredited by NBA, New Delhi and NAAC with 'C' grade and affiliated to Anna University Chennai. Our college was granted South Autonomous status under UGC Scheme for Autonomous Colleges with effect from the academic year 2015-2016 by UGC, New Delhi. Equipped with latest facility and excellent infrastructure, the college offers a total of 29 full time programmes including UG, PG and Ph.D. Currently more than 100 research scholars, both full time and part time, are working for their Ph.D degree. The college has developed five centres of excellence in various disciplines. More research facilities have been created in being with numerous leading industries worldwide.</p> <p>ABOUT THE DEPARTMENT</p> <p>The Department of Electrical and Electronics Engineering is offering B.E. (EE) and M.E. (Power Systems Engineering). The department is equipped with latest lab equipment and promotes R&D activities in related areas in collaboration with industries, wherever possible. The department has well equipped Power Electronics and Drive Lab and Power System Simulation lab with state-of-the-art technology. The faculty members are well equipped and dedicated towards the upliftment of the student community.</p>	<p>ABOUT STTP</p> <p>The Short Term Course covers all aspects of solar PV technology & its impact on the solar sector as well as identifying issues & challenges & providing potential solution. This course is applicable to all sizes of grid-tied PV systems including residential, commercial, and large-scale & does not cover battery. The goal of this Short Term Course course is to identify those issues and ways to improving them. One of such issues is array mounting & tracking mechanisms that causes / produces solar array to absorbing extended solar irradiance for maximum power output. Another such issues are researching different types of solar cells from past to present and the future trend and identify the sources of losses and how to mitigate them. Lastly, some critical components that are necessary for efficient operation of solar power inverter system are covered.</p> <p>Topics to be covered :</p> <ul style="list-style-type: none"> Introduction of Solar PV Systems Demonstration and simulation of characteristics of solar panel, Present status and future trends of PV technology Future challenges and mitigation methods for high PV penetration Power Converters: Inverters and Grids Grid-Tied Solar PV Systems Role of artificial intelligence in PV system Challenges and Mitigation Methods of PV Systems Implementation of MPPT for Solar PV Systems <p>Entrance Process</p> <p>Entrant pre-qualifies from premier institutions, R&D centres and industries will share their expertise on present status and future trends of PV technology and Grid-Tied Solar PV Systems.</p>	<p style="text-align: center;">AICTE sponsored Six Days Online STTP</p> <p style="text-align: center;">on</p> <p style="text-align: center;">Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration</p> <p style="text-align: center;">Organized by Department of Electrical and Electronics Engineering</p> <p style="text-align: center;">SLOT 3: 23rd – 28th Nov 2020</p> <p>Registration Details:</p> <ul style="list-style-type: none"> No registration fees Last date for Registration (Slot-3): 21.12.2020 Registration link (Slot-3): https://naacvt.com/online-sttp3 Interested participants have to complete online registration for participating in STTP Details related to registration, confirmation and meeting link will be shared through email. The maximum number of participants is limited and preference will be given on first come first serve basis. <p>Eligible:</p> <p>Faculty members and research scholars belonging to AICTE approved technical institutions, Universities & Industries persons can participate in the programme.</p> <p>Conditions:</p> <ul style="list-style-type: none"> It will be based on satisfying the following condition Participant attendance should be more than 80% Participant should submit the feedback form for all the sessions & Participant should score at least 80% of marks in the assessment will be conducted at the end of the STTP.

Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration

An AICTE Sponsored six days online Short Term Training Programme (STTP) on “Solar PV Technology: Envisaged Future Challenges and Mitigation Methods for High Photovoltaic Penetration” was conducted by Department of EEE from 23/11/2020 to 28/11/2020 at Paavai Engineering College. Resource persons invited from PSG College of Technology, Anna University, SRM University, GCE Salem, NIT Tiruchirapalli, VIT college professors and Global Application Manager Infineon Technologies India Pvt Ltd Germany.

Totally 76 faculties from different engineering colleges were attended in this program. This STTP helped the faculties to understand Solar PV Technology such as Demonstration and simulation of characteristics of solar panel, Present status and future trends of PV technology, Future challenges and mitigation methods for high PV penetration, Power Converters Issues and Tools, Grid-Tied Solar PV Systems, Role of artificial intelligence in PV systems, Challenges and Mitigation Methods of PV Systems and Implementation of MPPT for Solar PV Systems. These sessions helped the faculties for improving their skills of Solar PV Technology.

Recent Advancements in Green and Sustainable Energy Resources dated at 29th June 2020 to 03rd July 2020

Five days online Faculty Development Programme (FDP) on “Recent Advancements in Green and Sustainable Energy Resources” dated at 29th June 2020 to 03rd July 2020 was conducted by Department of EEE in Paavai Engineering College. Resource persons invited from SRM University, Anna University and VIT colleges. One session handled by Dr.K.Jagatheesan of Electrical and Electronics Engineering Department in Paavai Engineering College.

Totally 91 faculties from different engineering colleges were attended in this program. This FDP helped the faculties to know about introduction of green energy resources and its types, various conversion methods for green energy generation, wind energy conversion system, bio energy for sustainable development, solar photovoltaic energy conversion system and hydrogen energy for future. These sessions helped the faculties for improving their skills of Recent Advancements.

PAAVAI ENGINEERING COLLEGE

(Autonomous)

DEPARTMENT OF INFORMATION TECHNOLOGY

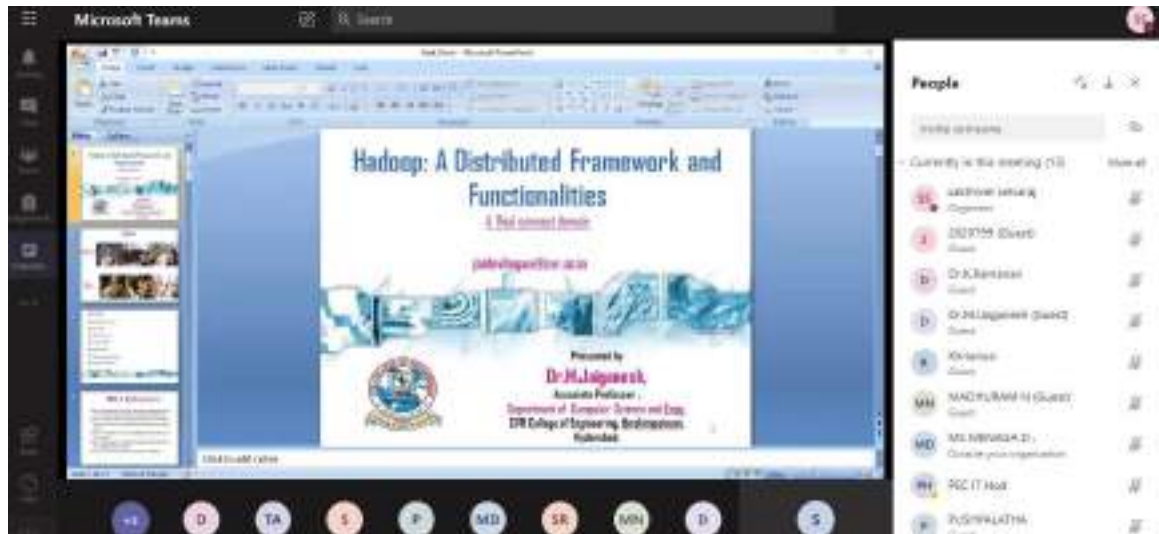

FACULTY DEVELOPMENT PROGRAMME ON “FUTURE SCOPE IN IT” ON 6-7-2020
TO 10-7-2020

Department of Information Technology, Paavai Engineering College organized A Five-Day Faculty Development Programme on “Future Scope in IT” on 6th July 2020 to 10th July 2020 through online. Head of the Department / IT Mr.B.Venkatesan welcomed the gathering. In the presidential address, Dr.K.Selvi Dean Academics, motivated the faculty members by all means by making them to participate themselves in this programme.

The Day 1 class was on “Data Science” initiated by Mrs.C.P. TamilSelvi, Associate Professor & Head, Sri Ranganathar Institute of engineering and Technology. “Intelligent Process Automation” subject was discussed on Day 2 by Dr.T.Velmurugan, Associate

Professor, PG & Research Department of Computer Application, D.G.Vaishnav College. Mr.Sabarinathan Muthu , Technical Manager ,Gateway Software Solution elaborated the topic “Cyber Security” on Day 3.The topic “Deep Learning” was illustrated by Dr.S.V.Subburaj , Director , VVV College for Women on Day 4.Dr.M.Jaiganesh, Professor , CVR College of Engineering explained the topic “Hadoop: A Distributed Framework and Functionalities of HDFS”on Day 5.

Various highlights and application in all the topics helped us to understand better and the way they took the seminar made some impact on us and hoping that, this will improve our career to a greatest extent. It was very good learning experience.

The vote of thanks was proposed by Mr.S.Rajesh ASP/IT. The Programme was very helpful to us.

Sub: Invitation for Five Days Faculty Development Program from 14th July to 18th July 2020-Reg.

With a great complacent we would like to inform you that our **Civil Engineering Department** of **Paavai Engineering College** is organizing Five Days Faculty Development Program on "**MODERN DEVELOPMENTS IN CONCRETE AND CONSTRUCTION AREAS**" from 14th July to 18th July 2020.

We aim at providing a platform where highly ambitious minds will get an opportunity to show their abilities.

Please find the enclosed brochure giving the details of the FDP.

Expecting a positive response in this regard.

The interested faculty and students can fill the google form attached below for your reference.

Five Day FDP on "Modern Developments in Concrete and Construction Areas"

14.07.2020- 18.07.2020

Five Day FDP on "Modern Developments in Concrete and Construction Areas" was organized by Department of Civil Engineering, Paavai Engineering College from **14.07.2020 to 18.07.2020**. The main aim of this Faculty Development Programme is to impart knowledge in technical area during pandemic period.

The day 1 of the programme is started with the topic "Research areas in Civil Engineering" by Dr.D. Jegatheeswaran, Professor, Civil Engineering department, Sona College of Technology, Salem. He delivered a brief note on research techniques and its implementations in construction areas. And also gave a detailed note on 3D analyzing techniques.

The day 2 of the programme is started with the topic "Modern Construction Practices" by Prof. K. Prasad Babu, Professor, Civil Engineering department, Mahendra College of Engineering,

Salem. He detailed about the various construction practices as per recent technology and also narrated about the different form work systems.

The day 3 of the programme is started with the topic “Mechanically Stabilized Earth walls” by Dr. B.Soundara, Professor & Head, Civil Engineering department, Bannariamman Institute of Technology, Sathyamangalam. She delivered about the various types of retaining walls and also about soil stabilization techniques.

The day 4 of the programme is started with the topic “Concrete Materials” by Dr.J.Karthikeyan, Associate Professor, Civil Engineering Department, NIT, Trichy. He gave a brief lecture on various construction materials, properties and its applications and also narrated about light weight concrete materials.

The day 5 of the programme is started with the topic “Studies on the Reuse of Industrial Effluents for Construction Practices” by Dr.K.Nirmal kumar, Professor, Civil Engineering department, Kongu Engineering College, Erode. He narrated about the reuse materials and influences in the construction practices.

JEGATHEESWARAN PILLAI is presenting

Mortar less System

The demand of houses for low to medium income population of the world has exceeded more. With the increase of construction materials costs such as cement, steel and timber, contractors are not enthusiastic to build these houses on a tight budget. The construction method of using conventional bricks has been revolutionized by the development and usage of interlocking concrete masonry units and lightweight concrete blocks. The tedious and time-consuming traditional brick-laying tasks are greatly simplified by the usage of these effective alternative solutions.

Artificial Light Weight Aggregates

- Foamed Slag:** Foamed slag is a by product produced in the manufacture of pig iron. It is a porous, honeycombed material which resembles pumice.
- Blasted Clay:** When special grade of clay and shales are heated to the point of incipient fusion, there will be expansion due to formation of gas within the mass. The expansion is known as bloating and the product so formed is used as light weight aggregate.

The presentation slide is titled 'Artificial Light Weight Aggregates' and lists two types: 'Foamed Slag' and 'Blasted Clay'. It includes a brief description of each and two photographs of the respective aggregates. The slide is part of a presentation by Karthikeyan Jayakumar, as indicated by the header. The bottom of the image shows a video conference interface with participant icons.

AUTONOMOUS
DEPARTMENT OF MECHATRONICS
FACULTY DEVELOPMENT PROGRAMME
Application Of Tools & Techniques In Research Methodlogy

A three-days faculty development programme on **“Application Of Tools & Techniques In Research Methodlogy”** was held at Paavai Engineering College, from July 21.7.2020 to 23.7.2020. The FDP aims to provide opportunities to faculty members to enrich their teaching skill. The Programme also intends to develop the knowledge of participants for Research Methodlogy with advanced tools in the relevant field for inculcating learning values in students and guiding and monitoring their progress. The FDP was attended by 213 participants. Mr.P.Senthil Kumar, Associate Professor, Department of Chemical Engineering, SSN College of Engineering has delivered an interactive lecture on “Research Design and Easy Methodlogy to write an Effective Research Paper”. In this session participants learned the meaning and importance of write an effective research paper. Dr.B.Chitti Babu, Assistant Professor, IITDM Kancheepuram, conducted the session on “Paper Reviewed Model & Publocation Process in SCI Journal”. In this session, he explained the paper publication process SCI journal and benefits. Mr.Sumesh, Assistant Professor, Department of Mathematics, St.Johns College has delivered an interactive lecture on “Data Plot Using Python”.

Thus the three-days faculty development programme on **“Application Of Tools & Techniques In Research Methodlogy”** was successfully completed in effective manner. All members involved were delighted with this learning initiative and value addition experience. The feedback received conveyed that the programme was intellectually enriching and qualitatively engrossing. The programme accomplished its set objectives and was a grand success.

The Department of ECE has organized a one day workshop on “Ethical Hacking” on 20.12.19 at Cute Hall. The Programme commenced by invoking the blessings of the Almighty. Dr.K.Selvi, Dean Academics presided over the function. In her presidential address, she mentioned the importance of ethical hacking. She said that “Ethical Hacking” creates a wider impact in today’s modern era. She also gave some real time examples of hacking since the beginning of this decade. Mr.S.Vivek, CEO, Ozone Cyber Security, Kerala was the Chief guest. He delivered the Keynote address .In his talk he spoke about ethical hacking and its significance in today’s world. He added that it is not only the role of IT engineers but also meant for other Department engineers. He also gave a gist about simple hacking techniques in everyday routine. The session commenced with the brief introduction of hacking and its types. He gave a vivid idea of site security and also explained the difference between hacking and ethical hacking. He expounded their nature of work like submitting reports to their network admin which clarified the difference of legal and illegal hacking. He threw some lights on router and its usage, vulnerability in hacking, testing the websites legally. Knowledge on Linux based software, denial of Service attacks, security tools SQL and Wi-Fi protected access like WPA,WEP, WPA2 involved in hacking were also explained by him. Trainees gave a demonstration on assessing the security of websites, computer systems, mobiles, malicious hacking, security posture of target system. Hands-on training was given to hack small websites through their applications using mobile phones. They gave us essential procedures to hack computer systems. Earlier Ms.R.Abinaya from Third year ECE gave the welcome address. Ms.M.Jesima Yasmeen from Third year ECE introduced the Chief guest. Mr.B.Abirama Kannan proposed the Vote of thanks. At the end of the day, students gained knowledge about basic hacking methodologies and awareness about security attacks

Report on Faculty Development Programme

The Faculty Development Programme on Electromagnetic Fields (FDP-2019) was successfully conducted by the Department of Electronics and Communication Engineering, on 17th June 2019, arranged by Department of Faculty Development, Paavai Engineering College (Autonomous), Namakkal.

The programme was inaugurated in the forenoon by Dr. K.K. Ramasamy, Director-Admin, Paavai Institutions in the presence of Dr. M. Premkumar, Principal, Paavai Engineering College, Dr. K. Selvi, Dean-Academics. The inauguration was followed by the welcome address by Dr. K. Selvi. Dr. K.K. Ramasamy delivered his presidential address on the pedagogical aspects of FDP and how it becomes more effective towards student centric teaching learning. Dr. M. Prem Kumar delivered his special address on the importance of continuous learning among faculty to create the curiosity on pedagogical approach in teaching among the participants.

The first session was handled by Professor C.Vanaja on the topic 'Electrostatic fields'. In this deliberation, she discussed in detail about the co-ordinate systems, vector differential operators and various laws of electrostatic fields. The applications of those laws were also discussed in detail. This session ended with tutorial on mathematical problem solving of vector analysis, static electric field and its associated laws. She continued the topic of 'Maxwell Theory and Equations' with clear steps how Maxwell concluded his four equations from Gauss's law, Faraday's law and Ampere's law. The afternoon session was allotted to Mrs.A.Samundeeswari to deal with the application of electromagnetic fields in various types of antenna and its working.

The FDP was concluded with a session on sharing the views of the participants Dr.T.Loganayagi , R.Mohana Priya, and G.NandhaKumar about how the electromagnetics concepts are applied in transmission lines. The FDP was validated with a lot of positive feedback from participants and it paved the way for the participants to improve their teaching in order to teach the students on the subject Electro Magnetic Fields. The FDP ended with vote of thanks given by Dr. T. Loganayagi ASP/ECE/PEC.

The Department of EEE, Paavai Engineering College has conducted faculty development programme "ELECTRICAL ENERGY SAFETY" on 15.06.2019 to 19.06.2019 at cute hall. Dr.K.K.Ramasamy, Director Administration, presided over the function and insisted the faculty members to consider this kind of FDP as a forum to discuss the need and importance of electrical energy safety. The resource persons are Dr.A.Rathinam Professor/EEE and Dr.K.Jagatheesan ASP/EEE Paavai Engineering College. They explained about the role, needs and importance of electrical energy safety. In their presentation, they explained the basic safety rules. Further, they went on explaining the approaches to prevent accidents. The resource persons involved all the faculty members and divided them into different groups to make them participate to understand the approaches to prevent electrical accidents. It was very interactive and interesting sessions. Dr.S.Surendiran, Professor/EEE welcomed the gathering and MrsG.Umamaheswari ASP/EEE proposed the vote of thanks. With this, the programme came to an end.

FACULTY DEVELOPMENT PROGRAMME ON POWER SYSTEM ANALYSIS

The Department of EEE, Paavai Engineering College has conducted faculty development programme “POWER SYSTEM ANALYSIS” on 19.12.2019 to 20.12.2019 and 15 faculty members attended this programme..Dr.K.K.Ramasamy, Director Administration, presided over the function and insisted the faculty members to consider this kind of FDP as a forum to discuss the need and importance of electrical energy safety. The resource persons are R.Muthukumar AP/EEE and Dr.K.Jagatheesan ASP/EEE Paavai Engineering College. They explained the recent trends in power system. They explained the ETAP software and its purpose. They elaborated how ETAP is used to perform load flow analysis, short circuits, transient instabilities, harmonics, relay coordination, arc flash, optimal power flow and battery sizing. He explained the load flow analysis using ETAP with a case study. In their presentation, they explained the basics of AI techniques in load flow analysis. It was very interactive and interesting sessions.

This two day FDP was an exclusive forum to discuss and outspread the information of faculty members in the Power System Analysis. It was sure that the faculty members have got a clear knowledge on the ways and means to explain the students clearly to have an in-depth idea. Ms.R.JonnieHepziba, AP/EEE welcomed the gathering and MrG.Deivamani AP/EEE proposed the vote of thanks.

“Faculty Orientation Programme on Develop Eyes for your Applications using AI “ on 03.07.2019 to 05.07.2019

The Department of Computer Science and Engineering, MCA, Information and Technology, organized a Faculty orientation programme on the title, “Faculty Orientation Programme on Develop Eyes for your Applications using AI. Virtual Reality (VR) is an important technology that gives scope for a great leap for adverse fields. It is sometimes referred to immersive multimedia, a computer-simulated environment that can simulate physical presence in places in the real world or imagined world. Virtual reality has numerous applications in Military, Education, Healthcare, Entertainment, Fashion, Scientific Visualization, Telecommunications, and Construction etc. Dr. Pinnamaneni Bhanu Prasad, Eminent Researcher and Director (R&D), Kelenn Technology, France, USA& Advisor for various industries was the Resource Person. He has vast experience in Teaching, Research and Industry, in his speech he emphasized the importance of transforming the thoughts to ideas and implementing in recursion and in his keynote address, gave presentation on the real-time applications of artificial intelligence, Image Processing, Image Processing, Virtual Reality and Augmented Reality.

The Department of Mechatronics and Computer Science and Engineering, MCA, Information and Technology, organized a Faculty development programme on the title, “Research Challenges in Fog Environment for IoT Services”. The session was inaugurated by Dr. M. Premkumar, Principal, Paavai Engineering College, in Cute Hall at 10.00 a.m. Presidential address was given by Dr.M. Premkumar, Principal, PEC. In his presidential address, he explained the importance of IoT in the upcoming technological world. He illustrated simple examples regarding application of IoT in the daily life. He focused on the areas like smart infrastructure, health care, retail and transportation in which various applications could be developed. He also elaborated about the current project experience, which is designed and implemented on the basis of IoT based Customer Engagement platform with updated technologies including Machine Learning Algorithm and Natural Language processing. He cited various projects which is presented and evaluated by experts from Taiwan Universities, which uses IoT devices. The keynote address was given by the guest speaker Dr. T. Veni, Assistant Professor, Department of Computer Science and Engineering, National Institute of Technology, Kozhikode. She expressed her sincere gratitude to Paavai Engineering College for their support. The session was continued on the title “Research Challenges in Fog Environment for IoT Services”. At the beginning, she focused on the Introduction of Internet of things and the four pillars of IoT. In order to kindle the curiosity among the students the application of IoT concept and devices were picturized in the form of mind mapping. Different software and hardware components required for IoT was explained with pictures and videos. Different sensors that can be deployed for the measurement of strain, temperature, pressure, gas, smoke are explained in detail. Various application in the field of health monitoring, Structures and bridges, Smart car parking, smart mix design were discussed with practical examples.

“A SIX DAY WORKSHOP ON THE TOPIC “SALESFORCE ADX-201” WAS ORGANIZED BY THE DEPARTMENT OF CSE ON 16.12.2019 TO 21.12.2019.”

A six day workshop on the topic “Salesforce ADX-201” was organized by the department of Computer Science and Engineering, MCA and Information and Technology in Paavai Engineering College, on 16.12.2019 to 21.12.2019. Mr. Nitul Sharma, Senior Technical Trainer, Department of Training & Research, ICT Academy was the trainer. Dr. PremKumar, Principal, Paavai Engineering College, welcomed the guest by presenting a bouquet. The principal, in the presidential address, urged the students to learn from environment where one can observe things which could pave way for their fortune. He also told that one should have innovative thinking which improves their knowledge and skills. He said that there are plenty of opportunities for the engineering graduates both at the corporate end and at other domains. He told the students that they should be passionate towards their goal and contribute to all activities that are held at department and college level. Mr. Nitul Sharma, in his keynote address, gave a detailed note on “Salesforce ADX-201” and the on-going applications and described the popularity of Salesforce ADX-201 in and around the globe. He explained the strategy of completing the modules in the Salesforce platform.

Modules pertaining to hands-on included the following –

Day 1: Creating Profiles, Reports, Dashboards, Day 2: Business Administration specialist (Super badge), Day 3: Business Administration Specialist, Day 4: security-Specialist, Day 5: Lightning Experience, Day 6: Summary and Feedback.

“THE DEPARTMENT OF IT ORGANIZED AN AWARENESS PROGRAM ON CYBERSECURITY 20.08.2019”

The Department of CSE , MCA, Information and Technology, organized an awareness programme on the title “Cyber Security for Women”. The session was inaugurated at 10.00 a.m. by Dr. M. PremKumar, Principal, in the presence of Head of the department-IT, faculty members and the participants from departments of IT, CSE, ECE and Bio Medical. In his address, the Principal highlighted the importance of safe and security for women and expressed his concern on Child Abuse. In addition to that, he insisted the importance of moral education, values and transformation of human life. The special address was given by the guest speaker Ms Meena Gayathri, Assistant Manager, Zacco Cyber Security Research Labs. She expressed her sincere gratitude to the college for the cooperation to create awareness among the girls. The session was carried over on the title “Cyber Security for Women”. She started the session by asking ‘Whether they felt safe inside the campus?’ Many gave the answers in their point of view. She asserted the introduction of Cyber Security by saying that Confidentiality, Integrity, and Availability are the pillars of the cyber security. Every student actively participated in the game that had some information about liberty of rights given to the people. She explained, what happens in a minute in Social media? And also the percentage of users in social media. Later she moved on to the topic of hacking, where there are eight different types of hackers. Followed by her team, they demonstrated how hacking is done by accessing camera of mobile phones & systems and also accessed the user name and password of the people. They also defined the terms of Social engineering, Bit coins, and Cyber bullying.

Two day Training Programme on AutoCAD
On
24.12.2019 to 26.12.2019

A two day training programme on AutoCAD was conducted by the mechanical department of the Paavai Engineering in the CAD/CAM laboratory in the temple tower block. The Resource person was Mr.S. Prabhakaran from the Mechanical department having experience in the field of drafting and designing. The basics of the AutoCad software and its techniques which are included in the latest versions of the software were exposed to the faculty attending the program.

Most of the faculty members having the exposure to the software, still the training programme enhances their ability to make the students understand the contents in a better way and implement the knowledge in drafting of the drawings.

The head of the department and principal overviewed the happenings and discussed with the faculty regarding the sessions and hands on training in designing complicated designs using AutoCAD. The faculty members showed their end result after completing the drafting and designing which were given as an exercise to them at the end of second day session.

Faculty Development Program on

Kinematics of Machinery for Mechanical Engineering

A Five days intra-collegiate Faculty Development Program (FDP) was organized on the subject “Kinematics of Machinery” for Mechanical engineering staff of Paavai Institutions on 14th and 18th of October 2019.

The resource persons was Dr.J.Selvakumar, Associate professor, Mechanical department, Paavai College of Engineering, Mr.S.Maniraj, Assistant Professor, Mechanical department, Paavai engineering college, R.Meiyazhagan, Assistant Professor, Mechanical Department, S. Prabhakaran, Associate Professor, Mechanical Department & Mr.A.Rajasekar, Assistant Professor, Mechanical department, Pavai college of technology.

The program took place in four sessions covering theory and practical's related to the area of study. On the first day “Basics of Mechanisms, kinematics and its Applications” were taught along with audio visual presentation. In the afternoon the members were given drawing exercises with problems to be solved.

The staff members interacted with the resource person on the topic “Gear and Gear trains” and got their doubts clarified. In the afternoon tutorials were conducted much to the satisfaction of the faculty. While receiving their corrected exercise, the members gave their feedback that the program fulfilled their expectation. Earlier, Dr.K.Selvi Dean Academics welcomed the gathering and talked about the need for FDP, Dr.M. Premkumar, Principal, Paavai engineering college and Director Admin encouraged the staff members to attend many more events of these types.

A one-day faculty development programme on ‘electro-pneumatics and automation – basic level’ was held at Paavai Engineering College, on 21th , January, 2020. The FDP aimed at providing opportunities to the faculty members to enrich their teaching skills. The Programme also intended to develop the knowledge of the participants for Electro Pneumatics and automation with the advanced tools in the relevant field for inculcating the learning values into the minds of the students and guiding and monitoring their progress. The FDP was attended by 12 participants. All the members involved were delighted with this learning initiative and value - addition experience. The feedback received from the participants conveyed that the programme was intellectually enriching and qualitatively engrossing. Thus, the faculty members of the department were enlightened and updated. On the whole, the programme accomplished its set objectives.

“Recent Technologies in Aeronautical Engineering for Research and Employment”

A faculty development program was conducted by the Department of Aeronautical Engineering from 09th – 13th June 2020 on the title **“Recent Technologies in Aeronautical Engineering for Research and Employment”**. The faculty and students of Paavai Engineering college attended the first day program given by Dr. S. Nadaraja Pillai, Associate Professor/Aerospace engineering, Sastra University. He gave a brief presentation among the students, faculties regarding the recent research going in on aerodynamics field like CFD and High-performance computing, Transition and Turbulence, Micro fluidics, Acoustics and gave some career opportunities in aerodynamics field. And also, he elaborated the various things associated with the Engine manufacturing and analysis. The presentation was useful and inspiring for the students as well as the faculty who had participated. We are looking forward to our future endeavors.

On second day a wonderful lecture given by Dr.P.S. Prem Kumar, Associate Professor/Aeronautical engineering, Kumaraguru College Technology-Coimbatore in the title “Basic aspects of Computational Fluid Dynamics & it's applications”. He explained in detail about advantages of learning CFD and how to get into core field by the help of this software knowledge. It was very useful and inspiring speech among participants.

On third day Dr.J.Bruce Ralphin Rose, Assistant Professor/Aeronautical engineering, Anna University Regional Campus, Tirunelveli shared his wide knowledge in the title “Advances in fluid mechanics”. It was very useful for students to learn new things about fluid mechanics problems and its applications.

Next day followed by Bruce, Dr.K.Sundararaj, Professor & HOD /Aeronautical engineering, Kumaraguru College of Technology-Coimbatore delivered such a wonderful presentation titled in “Compressible Flows with/without Shocks”. He explained the applications, principle and concepts of flow and shock. Later he shared his knowledge in compressible flow with shock and without shock. The presentation was useful and inspiring for the students as well as the faculty who had participated.

On fifth and last day of the program Dr. R. Santhanakrishnan, COE & Professor/Aerospace engineering, Amity University delivered a wonderful presentation on “Opportunities and Progress of Airline sector in India”. He gave ideas to students to how to get into airline sector and how the recruitment will be in airline sector.

Earlier, Welcome address was given by Mr.P.karthikeyan, AP/Aero for all five days. And the vote of thanks was given by Mr.K.Gokulnath, AP/Aero. The Head and the faculty members of the department graced the function with their presence.

FDP on “Applications of Remote Sensing and GIS in Water Resources Engineering”

The Department of Agriculture Engineering organized a FDP on “Applications of Remote Sensing and GIS in Water Resources Engineering” on 11.01.2020 at a cute hall. The welcome address was given by Mr. K. Vishnu bharath Faculty of Agriculture. The Principal, Paavai Engineering College, Presided over the function. In his presidential address, he emphasized the importance of this session and made the student enthusiastic to learn from the guest speaker. The chief guest started his session by saying about the GIS technology integrates common database operations, such as query and statistical analysis, with maps. GIS manages location-based information and provides tools for display and analysis of various statistics, including population characteristics, economic development opportunities, and vegetation types. GIS allows you to link databases and maps to create dynamic displays. Additionally, it provides tools to visualize, query, and overlay those databases in ways not possible with traditional spreadsheets. She also said that abilities distinguish GIS from other information systems, and make it valuable to a wide range of public and private

enterprises for explaining events, predicting outcomes, and planning strategies. She explained remote sensing is the art and science of making measurements of the earth using sensors on airplanes or satellites. These sensors collect data in the form of images and provide specialized capabilities for manipulating, analyzing, and visualizing those images. Remote sensed imagery is integrated within a GIS. The session ended up with doubts and questions by our students and the guest solved their doubts. Mrs. P. Arthiya Faculty of Agriculture proposed the vote of thanks.

OPTIMIZATION AND ERROR PREDICTION BY RESPONSE SURFACE METHOD
(RSM) TOOL

Paavai Engineering College (Autonomous), Department of Chemical Engineering organized one day workshop on 08-04-2020.

Dr.K.K.Ramasamy, Director-Administration, Paavai Institutions, and Dr.M.Premkumar, the principal, Paavai Engineering College (Autonomous), presided over the inaugural function. Mr.G.Srinivasan, HOD, Department of Chemical Engineering, welcomed the director, staff and students. He gave warm welcome to chief guest Dr.N.Sivarajasekar, Kumaraguru College of Technology, Coimbatore.

The chief guest Dr.N.Sivarajasekar addressed about optimization and error prediction by response surface method (RSM) tool. Some of the points are given below. The Response Surface Methodology (RSM) explores the relationships between several explanatory variables and one more response variables. In 1951, George E.P.Box and K.B.Wilson introduced the RSM method. The main idea of RSM is to use a sequence of designed experiments to obtain an optimal response. In order to do this, a second degree polynomial model was suggested by the Box and Wilson who acknowledged that this model is only an approximation, but they use it because such a model is easy to estimate and apply, even when little is known about the process. This method is the most common optimization technique and has been employed in many fields such as exploring chemical and biochemical processes. This technique is used to fit an empirical model to the experimental data. It is important to any system to increase performance in order to increase the yield at low cost. Statistical approaches such as RSM can be employed to maximize the production of a special substance by optimization of operational factors. Of late, for formulation optimization, using proper design of experiments (DoE), the RSM has become extensively used. In contrast to conventional methods, the interaction among process variables can be determined by statistical techniques.

RECIRCULATION OF FOOD WASTE MANAGEMENT

Paavai Engineering College (Autonomous), Department of Chemical Engineering organized webinar on 24-04-2020.

Dr.K.K.Ramasamy, Director-Administration, Paavai Institutions, and Dr.M.Premkumar, the principal, Paavai Engineering College (Autonomous), presided over the inaugural function. Mr.G.Srinivasan, HOD, Department of Chemical Engineering, welcomed the director, staff and students. He gave warm welcome to chief guest Dr.R.JAGANMOHAN, Indian Institute of Food Processing Technology, Thanjavur, Tamilnadu.

The chief guest Dr.R.JAGANMOHAN addressed on Recirculation of Food Waste Management. Some of his points are given below. Food waste or food loss is food that is not eaten by people. Food waste is mainly involved in functions such marriage, reception and in hotels due to surplus foods. In addition, food waste occurs during cooking, distribution, packing and consumption. Almost one third of all food produced is wasted. Food waste is one of the environmental issues and causes climate change. In 2014, the food and agricultural organization estimated that food waste causes global economic, environmental and social cost of \$2.6 trillion a year. Further it is responsible for 8% global greenhouse gas emission. Suppose, if food waste is not handled or reclaimed properly, i.e., through composting, it can cause many environmental problems. Landfill method is also done to dispose the waste food but it generates greenhouse gas methane by anaerobic digestion of the organic matter. Moreover food waste reduces the quality of water, land and other resources. Thus reduction of food waste is an important part of developing a sustainable economy and is an important cut off of environmental impact of agriculture.

RECENT TRENDS IN DRUG DELIVERY SYSTEMS

Paavai Engineering College (Autonomous), Department of Chemical Engineering organized webinar on 21-05-2020.

Dr.K.K.Ramasamy, Director-Administration, Paavai Institutions, and Dr.M.Premkumar, the principal, Paavai Engineering College (Autonomous), presided over the inaugural function. Mr.G.Srinivasan, HOD, Department of Chemical Engineering, welcomed the director, staff and students. He gave warm welcome to chief guest Dr.V.SIVAKUMAR, Paavai College of Pharmacy and Research, Namakkal.

The chief guest Dr.V.SIVAKUMAR addressed on Recent Trends in Drug Delivery Systems. Some of the points are given below. Drug delivery is defined as approaches, formulations, technologies and systems for transporting pharmaceutical compounds in the patient body so that therapeutic effects of drugs are optimum on specific target organs or tissues. The main aim of Drug delivery system is to reduce drug degradation and loss and further to improve bioavailability and to prevent side effects. It might involve facilitating systematic pharmacokinetics and is typically concerned with both quantity and duration of drug presence. Drug delivery is often approached via a drug delivering organic systems such as liposomes, micelles, vesicles, nerve fiber polymers, nanoparticles, liquid crystals, microspheres, implants. In recent year, researches are advanced on drug delivering organic compounds because simpler routes of administration. These new approaches can reduce solvency problems and protects the drugs from the external environment, for examples, photo degradation and pH changes. Oral administration is one of the most convenient methods for drug delivery system. Implantable Delivery Systems are implantable devices which are polymeric devises of various shapes and introduced into body tissue. Biocompatibility (ability of a material to perform with an appropriate host response in a specific situation) of implants is most important. The limitations of this type of devices are possibility of infection and irritation of implants. This type of delivery systems is mainly involved in diabetes, cancer, cardiovascular diseases and brain diseases.

Faculty Development Programme on “**Energy storage devices**”

A Two day Faculty Development Programme (FDP) on “**Energy storage devices**” was conducted by department of chemistry, Paavai Engineering College on 20.02.2020- 21.02.2020 at Cute Hall, Paavai Engineering College. Dr.S.Vadivel, Head of the Department of Physics, Paavai Engineering College was the resource person. On the whole, this FDP programme was beneficial to all the faculty members of Physics belong to Paavai Institutions. Dr.K.Selvi, Dean Academics, welcomes the gathering and suggested the faculty members to make use of the opportunity to develop their knowledge in new topics.

Faculty Development Programme is to promote basic and advanced research related to energy storage and its application for sustainable developments. Electrochemical energy storages like batteries, supercapacitors, fuel cells have been a leading solution for electrified/green transportation, renewable power grid, consumer electronics, etc. by taking care of the intermittency problem of renewable power sources. Efficient modeling, estimation, optimal control, cyber security, etc. are the primary research concern for efficient utilization of energy storage devices. Hence, this FDP plans to bring more awareness and instil research interest in the related areas into the minds of experienced as well as budding researchers. The session ended up with doubts and questions by our staffs their doubts. Mrs. S. Kavitha, ASP/Physics proposed the vote of thanks.

The Faculty Development Department organized a five-day orientation programme for the recently recruited faculty members (Batch-II) to make them familiar with the institutional practices and the instructional strategies of teaching and learning, because teachers are considered to be the pillars of Paavai. The orientation programme was held from 17.06.2019 to 21.06.2019 at the Smart Hall. 41 faculty members from Paavai institutions attended the orientation programme. The Inauguration was held at the Smart hall on 17.06.2019, where in Shri.CA.N.V.Natarajan, the Chairman explained the importance of teaching profession, role of teachers and their commitment towards students to get centum results and to groom them as employed citizens of the society. Smt.Mangai Natarajan, the Correspondent, felicitated the gathering. She highlighted the need for developing positive attitude among the teachers. She also pointed out the professional norms to be followed as a faculty member and the targets to be focussed to make the students degree holders. The objectives and methodology of the orientation programme were read out by Mrs.K.Subashini, Associate professor, FDD. Dr.R.Kasthuri Bai, Dean, FDD welcomed the gathering. CSE/HoD, PEC, Dr.K.Saravanan, CSE/HoD PCT, Mrs.Mahalakshmi, Additional Placement and Training officer, PEC and Mrs. K.Subashini, Associate professor, Faculty Development Department were the resource persons for the programme who threw light on areas such as 'Paavai on the path of Progress', 'Professional ethics and responsibility of teachers', 'Academic Leadership', 'Communication skills', 'Paavai culture', 'Teaching science subjects', 'Attitude', 'Institutional belongingness', 'Teacher accountability', 'Smart teaching' Importance of Research, 'Role of teachers in placement', and 'Instructional pedagogy'. During his presentation, the Chairman, emphasized that, the expected outcome from Paavai faculty is essential in the sense, that the staff should take all means to retain students during the entire course of study. There should not be any students dropout. It should be the utmost responsibility of the staff to enable the students to complete their degree and get certification. He accentuated that the faculty members should know about their students completely, so that it will be easy to guide the students efficiently and thoroughly. He further stressed the ideal qualities of Paavai students and advised the faculty to impart the same to the students. Finally, he concluded that the destiny of the students is in the hands of the teacher. Henceforth, the staff should work with involvement and dedication. Dr.K.K.Ramasamy, Director Administration, expounded on the different roles and responsibilities of the teachers. He advocated the practical method of teaching to reach out to the students of all categories. Various examples related to different branches of study were explained. Dr.C.Sathish, Director, spoke on, 'Academic leadership'. He narrated the good qualities of a leader. He said the teacher should reflect on their practices and consider how well they are encouraging active learning. He stated that in order to face today's higher education challenges, a teacher should have the courage and confidence of a lion, the king of the forest and also acquire a big focussed vision leading to big results as that of an eagle. He showed video illustrating the qualities of a leader. He presented the hand-outs to the teachers to self-examine one's strength and burn out the negatives for the betterment of an individual. Finally, he concluded that the teachers should emerge as contributors to the growth of an institution. Dr.Kasthuri Bai, Dean FDD elaborated the need and the relevance of English language and power of communicative competence. Dr.K.Selvi, Dean Academics explained the significance of Paavai Culture, Paavai Mantra and Paavai belief. Dr.M.PremKumar, Principal, PEC, emphasized the importance of developing a right attitude to serve as worthy members of Paavai. He explained that. 'One's attitude determines one's Altitude'. Dr.M.Devi, Principal, PCE explained the Institutional belongingness and further touched upon the principle of integrity and loyalty.. Dr.A.S.Kandasamy, Dean ECE, explained the thrust on teaching the fundamentals of physics, chemistry and mathematics. He focussed on the need for continuous learning to make the teaching relevant and application oriented. Dr.R.Arangasamy, HoD ECE elaborated on the significance of 'Teacher Accountability'. He stated that accountability is a measure of the teacher's dedication towards their job. And the staff are held accountable for the education that the students are receiving. Dr.A.Suphalakshmi, HoD, CSE explained the concept of Smart teaching. Dr.K.Saravanan, PCT, elaborated on the importance of Research and consultancy service at the professional education level.

Mrs.Mahalakshmi, Additional Training and Placement officer, referred to the big drift in the placement and the teacher's role in enabling students to undergo placement training. She stated that the staff should develop potentials to influence and enhance knowledge, skills, attitude and behavior of the students, so that they will be placed in top companies.Mrs K.Subashini, Associate professor, Faculty Development Department emphasized the pedagogy of teaching and learning. She further highlighted the different strategies and techniques of teaching and learning to make the classroom interactive and interesting. Each resource person explained, elaborated and had an interactive session with the faculty members. Around thirteen topics had been handled in these five days. Throughout the orientation the members were assisted to hone their LSRW skills. Assignments, peer teaching and evaluation, lesson plan writing, preparation of mind-map, were undertaken by the faculty members. Every faculty gave a model presentation of their teaching units and feedback was given then and there to enhance the procedure of the effective teaching. Different kinds of activities such as Ice breaking event, leadership and Number game, Tables and Thirukurral recitation game, memory games were also conducted to keep up the excitement of teaching and learning. The programme thus catered to the needs of the inductees and the Faculty Development Department expressed its willingness to be with them as and when required. The valedictory function was held on 21.06.2019 at the smart hall by 02.30 p.m. All the faculty members recorded their feedback. Smt. MangaiNatarajan, the correspondent felicitated the gathering by explaining the multiple roles of teachers in adhering to the ethics and the responsibilities of the profession. She highlighted the idea that the teachers should act as a facilitator, guide, controller and counselor to the students in bringing out the best in them and make them realize their potentials to successfully complete their studies. With this the orientation programme came to an end.

FACULTY REVALIDATION PROGRAMME
Academic year 2019-2020**

The inauguration of Faculty Revalidation Programme (FRP) for the academic year 2019-20 for the faculty members of Paavai Engineering College, Paavai College of Engineering and Paavai College of Technology was held in the Smart Hall at 02.00 p.m. on 22.11.2019. The programme started with the prayer song. Smt.Mangai Natarajan, Correspondent, Paavai Institutions, inaugurated the event by lighting the kuthuvilakku and delivered the felicitation address. The chairman, delivered the inaugural address, he insisted that this FRP is a healthy exercise for the faculty members to enrich, develop, update, their professional skills in teaching and learning process. He further highlighted that this forum provides an opportunity for the faculty members to exhibit their contextual knowledge and the teaching skills for the betterment of themselves and to the students' community at large. He concluded that the teachers should make use of this platform at a proper sense with right attitude and excel in their life. Smt.Mangai Natarajan, Correspondent, Paavai Institutions, felicitate the gathering. She explained Paavai philosophy and principles with the slogan, 'Healthy Paavai, Wealthy Paavai and Powerful Paavai'. She made all the faculty members recite the slogan. She said that FRP is not a delivery forum but a discussion forum and the presenters should have the thirst to learn and update their knowledge and skill from the seniors and experts on the panel. At last, she concluded by saying that Faculty Revalidation Programme is not a fault finding process but it is a fact finding process and the members should use this feedback channel in the right sense of the word. With this the inauguration came to an end. Dr.R.Kasthuri Bai, Dean Faculty Development Department, welcomed the gathering. 140 faculty members participated in the inauguration. The Deans, Principals, HoDs and senior faculty members graced the occasion. The FRP session went on for a month, wherein Faculty members from PEC, PCE, PCT,PPC and PASCW presented their topics. Totally around 150 faculty members presented their topics in front of the panel. With this FRP came to an end.
