Coaching Class Schedule

Circular

Ref: AERO/CIR/CC/2021-2022/05

Date:25.10.2021

Slow learners are identified by the student's performance in continuous Internal Assessment II examinations. Coaching class will be conducted for the slow learners of Vth B.E.AERO. The Students concerned are advised to attend the Coaching class from 5.00 P.M to 6.30 P.M for the subjects as mentioned below to improve their academic performance and the attendance of these students for the class work will be monitored.

In the previous academic year 2021-2022 Odd semester, AE16702- Aircraft Design was identified as result pulling subject and we have plan to conduct remedial class to the slow learners for this subject. Slow learners are identified by the student's performance in previous end semester examinations. Similarly, students having backlogs in their previous semester end examinations can be also considered as slow learners. Remedial class schedule will be announced and attendance of these students for the class work will be monitored.

The following Third year students are asked to attend the remedial class without fail. Attendance is compulsory.

Remedial Class Analysis - Graph

The slow learners were observed that the improvement in performance of periodical Continuous Internal Assessment Tests. The graph is drawn below, based on the remedial classes and timely analysis.

The graph shows in the subject AE16702- Aircraft Design by conducting remedial classes for the slow learners before each Continuous Internal Assessment test, the pass percentage (%) of the students got increased.

Thus the pass percentage (%) of the particular subject is 93.33% when compared to the previous academic year 71%.

In the previous academic year 2021-2022 Odd semester, **CE19502-Soil Mechanics** was identified as result pulling subject and we have planned to conducted remedial class to the slow learners for this subject in the academic year 2021-2022 Odd semester. The Slow learners are identified by the student's performance in previous semester end examinations.

The following Third year students are asked to attend the remedial class without fail. On the previous day evening of the schedule commencement of Continuous Internal Assessment test in their corresponding subject .The remedial class schedule is given below.

S.No	Course code & Course Name	Name of the Faculty	Time
1.	CE19502-Soil Mechanics	P.Vignesh	5.00P.Mto 6:30P.M

Remedial Class Analysis Graph

The slow learners were observed that the improvement in performance of periodical Continuous Internal Assessment tests. The graph drawn below, based on the remedial classes and timely analysis.

The graph shows in the **CE19502-Soil Mechanics** by conducting remedial classes for the slow learners before each Continuous Internal Assessment test, the pass percentage (%) of the students got increased.

Thus the pass percentage of the particular subject is (83.33%) when compared to the previous academic year (82.50%).

Ref: ECE/CIR/2021-2022/008

Date: 16.09.2021

EC20302 - Digital Electronics course result was pulled in the previous year end semester examinations. Hence, to overcome this issue in this semester, the remedial classes will be arranged for all the CIA examination and the slow learners were asked to attend the remedial classes without fail.

S.No	Course Code / Title	Faculty Name	Time
1	EC20302 - Digital Electronics	S.Sathish	5.30P.M to 6.30P.M

The following students are asked to attend the remedial class without fail. Attendance is compulsory.

S.No	Register Number	Name of the Student
1	20105002	Akashkrishna P
2	20105004	Anbarasu N
3	20105005	Anbukkarasan H
4	20105008	Ashmeerhaan R
5	20105010	Avula anjaneya Yadav

Remedial Class Analysis Graph

The slow learners were observed that the improvement in performance of periodical Continuous Internal Assessment Tests. The graph is drawn below, based on the remedial classes and timely analysis.

The graph shows in the course EE20302- Electromagnetic Theory by conducting remedial classes for the slow learners before each Continuous Internal Assessment test, the pass percentage of the students got increased.

Thus the pass percentage of the particular course is 100% when compared to the previous academic year 91.57%

Coaching Class Report

Date: 28/5/22

The coaching class for the students who scored less than 50% of mark and absentees in the Continuous Assessment I in the course MT-20402 MECHANICS OF SOLIDS has been conducted as per the coaching schedule. After completion of the coaching class, it is notice that the students that some students shown the considerable performance increase in Continuous Internal Assessment I result publish, have also shown the considerable performance increase in Continuous Internal Assessment II (CIA II). The rich effectiveness of conducting the coaching class is inferred as a whole for test result. Here with the coaching class comparison report is enclosed.

Remedial Class Analysis

The slow learners were observed that the improvement in performance of periodical Continuous Internal assessment tests. The graph is drawn below, based on the remedial classes and timely analysis.

The graph shows in the subject MT20402- Mechanics of Solids by conducting remedial classes for the slow learners before each continuous internal assessment test, the pass percentage (%) of the students got increased.

Thus the pass percentage (%) of the particular subject is 92% when compared to the previous academic year 90%.

Date: 15.09.2021

In the previous academic year 2020-2021 Odd semester, ME19505-Design of Machine Elements was identified as result pulling subject and we have planned to conduct remedial class to the slow learners for this subject in the academic year 2021-22 Odd semester. The Slow learners are identified by the student's performance in previous end semester examinations.

The following third year students are asked to attend the remedial class without fail. On the previous day evening of the schedule commencement of Continuous Internal Assessment test in their corresponding subject. The remedial class schedule is given below.

Circular

Ref: FT/CIR/RC/2021-2022/03

Date: 08.10.2021

In the previous academic year 2021-2022 odd semester, FT20303- Food Process Calculation was identified as result pulling subject and we have plan to conduct remedial class to the slow learners for this subject. Slow learners are identified by the student's performance in previous end semester examinations. Similarly, students having backlogs in their previous semester end examinations can be also considered as slow learners. Remedial class schedule will be announced and attendance of these students for the class work will be monitored.

The following Secound year students are asked to attend the remedial class without fail. Attendance is compulsory.

Remedial Class Analysis - Graph

The slow learners were observed that the improvement in performance of periodical Continuous Internal Assessment Tests. The graph is drawn below, based on the remedial classes and timely analysis.

The graph shows in the subject FT-20303-Food Process calculation by conducting remedial classes for the slow learners before each Continuous Internal Assessment test, the pass percentage (%) of the students got increased.

Thus the pass percentage (%) of the particular subject is **100%** when compared to the previous academic year **87.5%**
