Dear Sir,

Reference: PEC / JAARC/ Consultancy/ Aero / 001

Based on the research-related areas, we received your profile. For the time being, were working on some drone testing for a customer. As a result, we ask that you have a detailed timeline for completing the job.

We are estimated to allot Rupees **22,000.00** (Twenty Two Thousand) for doing the "**Design and Fabrication of High Altitude Remote Autonomous Afforestation Drone**" project work.

For further details kindly contact the under signed as your time permits. Any further discussion can be held at your venue without disturbing your curriculum activities.

Thanking You

Best Regards

Mr.J. Balakannan
Managing Director

LETTER OF HONOUR

Dear Sir,

On behalf of JET AEROSPACE AVIATION RESEARCH CENTER thank your dedicated team for their smooth transition into the industrial arena. They applied their knowledge in practical real world circumstances, there by accomplishing standards termed excellent industries.

In this Period, we noted that they possessed fine ability to work in a team. Apart from being cordial, they have good technical qualities in the process of working with their team involved. The work displayed by your team shows fine practical knowledge and a technical issues was seems to be their force.

We once again thank your esteemed institution and for your technical and dynamic leadership qualities.

Thanking you

Best Regards

J. Balakannan

Dear Sir,

We are very much delighted to inform you that, we are in a position to offer a project from our side to your esteemed institution.

We are willing to allot a budget of Rupees **20,000.00** (Twenty Thousand) this project work.

The Title of the Project is “ **Autonomous Hummer- Based fire fighting For industries**”

Looking forward for your positive response.

For further Communication feel free to contact our team

Thanking You

Memorandum of Understanding

Measurement of vertical profiles of temperature, relative humidity and winds using GPS aided Radiosonde

between

National Remote Sensing Centre
ISRO, Department of Space, Govt. of India
Balanagar, Hyderabad-500037

and

Paavai Engineering College (PEC),
Pachal, Tamil Nadu, India – 637018.

Signed on: 25-10-2022

**National Remote Sensing Centre
Mémorandum of Under standing**

**Measurement of vertical profiles of temperature, relative
humidity and winds using GPS aided Radiosonde**

This Memorandum of Understanding (hereinafter called the "MoU") is made on the day of..... 2022, between the National Remote Sensing Centre (NRSC), Indian Space Research Organization (ISRO), Department of Space, Government of India (hereinafter called the 'NRSC') and Paavai engineering college (PEC), Pachal, expression hereof includes its successors, administrators and assignees of the second part.

NOW THEREFORE, the parties hereto hereby agree as follows:

1 Preamble

The Atmospheric Boundary Layer (ABL) is the lowest layer of the troposphere that is directly influenced by the Earth's surface and the processes in ABL control exchanges of momentum, water, and trace substances between the Earth's surface and the free troposphere (Stull 1988). Vertical profiles of meteorological parameters (temperature, relative humidity, wind speed & direction, and air pressure) are important for understanding boundary layer processes, radiative transfer calculations, air pollution meteorology, weather prediction, climate monitoring and to validate the same parameters retrieved from satellites. Among various parameters upper air temperature and wind constitute Essential Climate Variables (ECV). Keeping the importance of these parameters in view, it was proposed to have measurements at different locations in India as a data repository of National Information System for Climate and Environment Sciences (NICES) program and its use for validation of satellite sounder data (for e.g. INSAT 3DR).

ISRO formulated NICES with the mandate to build an information base for climate change impact assessment and recommendation for mitigation under the guidance of NICES Programme Management Council (NICES-PMC) with representatives from inter and intra-

MOU between NRSC and PEC

departmental institutions. As part of this program, regular GPS aided radiosonde measurements of vertical profiles of temperature, pressure, humidity and winds are to be carried out at several locations using ISRO developed Pisharoty Sonde using balloons filled with Helium.

The radiosonde measured vertical profiles of meteorological parameters are also essential to validate the NICES products on satellite derived vertical profiles of Temperature, Humidity (INSAT 3DR etc), Boundary layer heights and Model derived winds and temperature profiles. This MOU intends to facilitate the Radiosonde installations, ascents together with future network expansion.

(i) National Remote Sensing Centre (NRSC)

National Remote Sensing Centre (NRSC) is one of the primary centers of Indian Space Research Organization (ISRO), Department of Space (DOS), Govt. of India. NRSC has the mandate for establishment of ground stations for receiving satellite data, generation of data products, dissemination to the user sand development of techniques for remote sensing applications including disaster management support, geospatial services for good governance and capacity building for professionals, faculty and students.

(ii) Paavai Engineering college

Paavai Engineering college is affiliated to Anna university (Approved by AICTE and Accredited 'A grade' by NAAC). This is located in Pachal village in namakkal district in Tamilnadu, away from the urban pollution representing cleaner atmosphere. College offers different engineering courses including aeronautical engineering. The college is already a part of NRSC lightning network under NICES program with an excellent support.

(i) Reference to Earlier MOU, if any

Nil

(ii) Purpose/Need for MOU

Radiosonde Network For NICES (RANN) is a project under NICES program. ISRO formulated NICES with the mandate to build an information base for climate change impact assessment and recommendation for mitigation under the guidance of NICES Programme

4	Date of Signing, Effective Date and Duration of MoU			
	Date of signing: The date of signing in MOU shall be the date on which NRSC's authorized signatory affixes his /her signature.			
	Effective date: The effective date of MOU is the date when both parties sign the document.			
	Duration of MoU : 5 years			
5	Scope of Work			
	The scope of overall project is to study the atmospheric boundary layer characteristics and validate the satellite and model derived products using the radiosonde measurements at different geographical locations in India. However, the scope of present MOU is to install the Radiosonde ground station at the premises of the host institute and perform regular interval measurements of atmospheric profiles using the Radiosonde by the host institute.			
6	Methodology			

2/10/20

Pr

MOU between NRSC and PEC

	<ul style="list-style-type: none"> • Installation of Radiosonde ground station at the premises of host institute. • Conduct the Radiosonde measurements regularly by the host by coordinating with the nearest Air traffic control (ATC) centre, Airport. The experiment will be conducted simultaneously by the host institutes subjected to ATC clearance. • Transfer of data to NRSC through secure data transfer protocol • Analysis of the seasonal variation in the profiles and boundary layer dynamics. • Analysis of comparison statistics between satellite / model derived profiles and Radiosonde.
7	<p>Deliverables & Specifications</p> <p>Second party will deliver the following to First Party</p> <ul style="list-style-type: none"> • Conduct regular Radiosonde ascents. • Data base generation of Radiosonde measured profiles. • Data transfer to NRSC. <p>Specifications</p> <p>Upkeep of the installed equipment by ensuring proper UPS/ power, internet facilities etc...</p>
8	<p>Data Holding: NRSC/ISRO, Department of Space and PEC will be the joint custodian of the data that will be generated through this project.</p>
9	<p>Applicable documents : Formal Proposal, Green sheet approval from Director, NRSC</p>
10	<p>Guidelines on data / Map security</p> <p>Approval of competent authority of NRSC is required for sharing data with 3rd party. . Data sharing shall be done as per ISRO data policy guidelines.</p>
11	<p>Responsibilities</p> <p>First party : NRSC</p>

- NRSC will ensure the Radiosonde system supplied is technically suitable.
- Technical support for the Radiosonde operation and necessary approvals from ATC.
- Analysis of Radiosonde profile data to study boundary layer dynamics and satellite/model data validation

Second Party : Paavai Engineering college (PEC)

- Conduct the Radiosonde measurements regularly by coordinating with the nearest Air traffic control (ATC) centre, Airport.
- Transfer the collected data to NRSC through secured data transfer protocol
- Providing appropriate security to the Radiosonde system installed at their premises.
- Extend logistics to NRSC scientists during the maintenance, testing etc activities.
- Submit annual utilization certificate for funds provided by NRSC with justifications

12 Activity Schedule

The project is proposed for a time period of 5years. The tentative schedule is as follows:

13.1 First Year (0-12 Months)

- MOU Preparation and approvals with the host institutes
- Approvals from ATC, Installation of Radiosonde ground station, commencement of measurements and Capacity Building at the host institute.

13.2 Second Year (13 – 24 Months)

- Conducting Radiosonde measurements in regular intervals at the host institute/university

13.3. Third Year (25-36 Months)

- Regular Radiosonde measurements at the Network stations
- Data Base Building

• 13.4. Fourth Year (37-48 Months)

- Regular Radiosonde measurements
- Data Base Building , Data preparation and Analysis
- Study of boundary layer dynamics and satellite/model data inter comparison at different network locations

13.5. Fifth Year (49-61 Months)

राजेश

[Handwritten signature]

MOU between NRSC and PEC

- Data Base Building, Data preparation, and Analysis
- Radiosonde data hosting at NICES/NRSC sites.
- Project report preparation
- Project Extension and further planning
- Network Expansion and Involvement of other groups for further projects and studies

13 Consideration and Schedule of prices (per annum)

S.No	Activity	Cost (in Rs.)
1	The Radiosonde system and sensors will be provided by NRSC.	0
2	The collaborators fund towards purchase of consumables for the experiment (Helium gas, regulator, Balloons and other consumables for balloon ascents), professional services (maintenance and technical support), miscellaneous expenditure (travel etc.) of the installed Radiosonde system and institutional overheads(10%) per annum	6,00,000=00
3	Total cost (Rounded off)	6,00,000=00

Paavai engineering college will perform regular Radiosonde ascents and transfer the data to NRSC for operational and R&D activities.

14 Funding Terms and Conditions of Payment

- I. The funds are being made available through National Information system for Climate and Environment Studies (NICES) program with NRSC.
- II. The collaborators fund towards the purchase of the consumables for the balloon ascents, maintenance and technical support of the installed Radiosonde ground station is estimated to be 6.0 lakh per annum. Funds to be made available for the host institutes on annual basis as per the allocation of the programme/project.
- III. Payment shall be made after the signing of MOU. The 50% shall be paid in the start of the financial year while the rest will be released after receiving the fund utilization certificate.

15 Training

[Handwritten signature]

[Handwritten signature]

MOU between NRSC and PEC

	<ul style="list-style-type: none">• Suitable training towards the equipment maintenance, operation will be provided by the ECSA, NRSC.
16	Warranty The warranty of the equipment will be covered by NRSC through the vendor.
17	Project Monitoring Quarterly monitoring of the project will be carried out by PD, NICES and will be presented in the PMC meeting
18	Confidentiality "All information and documents to be exchanged pursuant to the Memorandum of Understanding will be kept confidential by the Parties and will be used subject to such terms as each Party may specify. The Parties will not use the information for purposes other than that specified, without the prior written consent of the other Party. All the parties will maintain utmost confidentiality in data sharing. During the tenure of the MoU and thereafter both Partners undertake on their behalf and on behalf of their employees/representatives/associates to maintain strict confidentiality and prevent disclosure thereof all the Information and data exchange/ generated pertaining to work, under this agreement/MOU. However the data can be published and shared jointly for scientific publication with mutual written consent of both the parties All Confidential Information shall remain the exclusive property of the disclosing Party. The Parties agree that this MoU and the disclosure of the confidential information do not grant or imply any license or interest or right to the Recipient in respect to any intellectual property right of the other Party. Unpublished information, whether oral, in writing or otherwise, discovered or conceived by the scientists or technicians and exchanged under the provisions of this MoU will not be transmitted to a third party, unless otherwise agreed by the Parties in writing.
19	Intellectual Property Rights The original information, the methodology adopted, original data, derived data, the originals of any reports and documents or materials prepared or inventions or information produced as a result of the services and all intellectual property rights therein, unless otherwise specifically stated in the MoU, shall be and shall remain property of the parties in agreement. The procedural formalities for securing and maintaining the intellectual property rights (patents/trademarks/copyright) if any, shall be the responsibilities of NRSC and Paavai engineering college and the expenditure incurred thereof shall be borne by each party equally, consistent with laws, rules and regulations of India. The question of whether or not the intellectual property rights should be secured and the territory where these shall be secured will be decided by the Paavai engineering college(Head of the Second Party)

MOU between NRSC and PEC

and Director, NRSC

NRSC and Paavai engineering colleges shall have to consult each other to commercially exploit/ use the intellectual property generated in the Project with mutual written consent. In such an event, the fee and royalty and other terms and conditions for the commercial exploitation/ use of the aid intellectual property created in the project shall be decided based on mutual understanding / discussion for which a separate agreement shall be entered into.

During the work envisaged under the agreement in the event of NRSC, ISRO Scientist exploring, inventing or discovering results other than the specific objectives of the project, NRSC, ISRO and Paavai engineering college (Head of the Second Party) shall retain equal undivided rights on such results.

The Parties shall not assign any rights and obligations arising out of the IPR generated through inventions/activities carried out under the MOU to any third party without prior written consent of the other party.

In case research is carried out solely and separately by the party or the research results are obtained through the sole and separate effort of the party, the party concerned alone will apply for grant of IPR and once granted, the IPR will be solely owned by the concerned party.

In case of research results obtained through joint activities, the grant of intellectual property rights will be sought by both parties jointly and once granted these rights will jointly owned by the Parties.

For all the data provided by the one of the parties, all responsibility and rights shall rest with that party only.

The Intellectual property that is (know-how/process/design/technique/ copyrights) generated in the project executed shall be owned by the respective parties depending on their respective contributions. Wherever, any of the above work executed in a collaborative way, the extent of the ownership shall be decided mutually, depending on the relative inputs (intellectual/ technical/ financial/physical) made by the parties here to the project.

All disputes concerning intellectual property rights and other commercial rights arising out of any activities performed under this MOU or agreement related thereto shall be settled through mutual deliberations in terms of applicable laws.

The products made out of the Radiosonde system and its network remains sole property of NRSC –Hyderabad.

However, Paavai engineering college can use and analyze the data for R&D and publish the results with due acknowledgment to NRSC/ISRO with mutual consent.

Protection of Intellectual Property :

Each Party will ensure appropriate protection of intellectual property rights created from cooperation pursuant to MoU, consistent with laws, rules and regulations of India.

20 Commercialization

21-12-11

[Handwritten signature]

MOU between NRSC and PEC

	<p>In case of research results obtained through joint activities under this MoU concerned Parties will apply as co-applicants for the protection of intellectual property rights in India. Commercialization in any other country shall be done jointly through a separate agreement.</p>
21	<p>Publication</p> <p>Any Publication, document and/or paper arising out of joint work conducted by the parties on to this MOU will be jointly owned. The publications (research papers, reports etc.,) shall be in the names of research workers, wherein it will be duly acknowledged that the work has been carried out under collaborative programs between the parties. However, the data can be published and shared jointly for scientific publication with mutual consent of both the parties involved in the respective projects. The use of the name, logo and/or official emblem of the parties on any publication, document and/or paper will require prior permission of both the parties. It may however be ensured that the official emblem and logo is not misused.</p> <p>Notwithstanding anything contained in this agreement/MOU or any document related thereto, all the differences or disputes including publication related disputes concerning intellectual property rights arising out any activities performed under this agreement/MOU shall be settled through mutual deliberations or procedures established under applicable laws and Rules made there under.</p>
22	<p>Modifications to MOU</p> <p>The project is designed and formulated after detailed discussion. However if any change in scope of work or modifications w.r.t to duration of MOU / Technical issues / deliverables etc are required, it will be done through mutual written consent from both the parties and treated as amended to this MOU. The modification / changes shall be effective from the date on which they are made, unless otherwise agreed upon.</p>
23	<p>Governing Law</p> <p>This MOU is hereby concluded in terms of understanding of the parties about the law of MOU and is intended to be regulated by relevant applicable Indian laws.</p>
24	<p>Force Majeure</p> <p>Neither party shall be held responsible for non-fulfilment of their respective obligations under the agreement due to the exigency of one or more of the unforeseen events such as but not limited to Acts of God, war, flood, earthquake, strike, lockouts, epidemics, riots, civil commotion etc. provided on the occurrence and cessation of any such events, the party affected thereby shall give a notice in writing to other party within one month of</p>

MOU between NRSC and PEC

	such occurrence or cessation. If the force-majeure conditions continue beyond six months, the parties shall then mutually decide about the future course of action.
25	Indemnity Either Party ("Indemnifying Party") shall indemnify and keep indemnified the other Party ("Indemnified Party") against any and all claims, direct losses, injuries, liabilities, reasonable costs and expenses, direct damages, actions or proceedings which may be made or taken against the Indemnified Party by any person arising out of any breach, action or inaction of the Indemnifying Party under this agreement. In no event whatsoever, the Indemnifying Party shall be liable to the Indemnified Party for any loss of revenue, loss of profits, rights or services, incidental, indirect or consequential damages arising from or related to this agreement.
26	Dispute Settlement and Arbitration In case of any dispute or difference of opinion or interpretation of the MOU arising out of the activities performed under the provisions of this contract or related document not amicably resolved completely by mutual discussion or consultation between the parties within thirty days (30), the entire matter shall be referred to the Administrative Mechanism for Resolution of CPSEs Disputes (AMRCD) for settlement of any such commercial disputes and the procedure mentioned in the Office Memorandum Dated 22 nd May, 2018 and others OM subsequently issued by Department of Public Enterprises, Ministry of Heavy Industries & Public Enterprises shall apply in consonance with applicable Indian laws and public policy. Notwithstanding anything contained in above para, in case of any dispute or difference of opinion falling under the exception to the ambit of Administrative Mechanism for Resolution of CPSEs Disputes (AMRCD) the party to this contract/agreement/MOU with mutual consent may take recourse of any alternative dispute settlement mechanism including arbitration for settlement of such disputes as per applicable law and procedure. Pending the submission of and / or decision on a dispute, difference or claim or until the arbitral award is published; the parties shall continue to perform all of their obligations under this MOU without prejudice to a final adjustment in accordance with such award
27	Jurisdiction Any dispute arising out of the implementation or interpretation of any provisions of this MOU shall be subject to the jurisdiction of Hyderabad courts.

21/11/2018

[Handwritten Signature]

MOU between NRSC and PEC

28 Termination: (for Cause, Convenience, and Force Majeure)

On completion of MoU duration, as stated in the clause No. 4, the MoU ceases to exist. During the tenure of the agreement, either Party may terminate and nullify this Agreement/MOU by providing prior written notice of 30days to the other party for any of the reasons – Cause/convenience/Force Majeure.

- Termination for Convenience: For convenience without assigning any reason.
- Termination for Cause: For the breach of any obligations/responsibilities/conditions of this agreement by the other party, with an opportunity to cure/rectify such a situation within thirty (30) days to the defaulting party and no remedial action is taken to the satisfaction of the aggrieved party.
- Termination for Force Majeure: in the event of "Force Majeure"
- Obligations upon Termination

Following termination or expiration of this Agreement, in addition to any other obligations existing hereunder or otherwise at law or in equity:

- The rights and obligations of the parties thereto shall be settled by mutual discussion; the financial settlement if any shall take into consideration not only the expenditure incurred but also the expenditure committed by the parties hereto.
- The agreement arrived at between the parties hereto for the utilization of the intellectual property (defined in clause #19.0) shall survive the termination of the agreement.
