TO WHOM SO EVER IT MAY CONCERN

This is to certify that Paavai Engineering College has various initiatives to manage different types of waste, which include solid, liquid, Bio-medical, E-waste and waste recycling. The institution adopts various strategies to manage the waste products. Bio-gas plant is installed in the hostel to manage the solid waste and it produces 51 m² of gas per day.

Sewage water treatment tank is installed to treat waste water around 4.00.000 litres per day is treated using this tank.

Biomedical wastes are treated through sterilization and hot air oven instrument of Chemical Engineering Department.

Waste recycling system is practiced and all biodegradable waste is utilized as bio-fertilizer for our agricultural land in the college. No hazardous chemicals and radial active elements are generated and used in any form in the college campus.

The college maintains, conserve and sustain the eco-friendly environment of the campus for better future of society.
